CONCRETE BLOCK MOULD SAMPLES

ABOUT US

Mega Machinery And Mould Industry is a branch of Mega Export that started its commercial activities in 2007. Our company started to grow rapidly thanks to the experienced and expert staff and today it continues its trade life with the factory area established on 8.000 m2 area. In our projects, we manufacture every type of moulds for interlocking paving block and hollow block machines without any dependence on other companies and using superior technologies in our modern facility.

OUR MISSION AND VISION

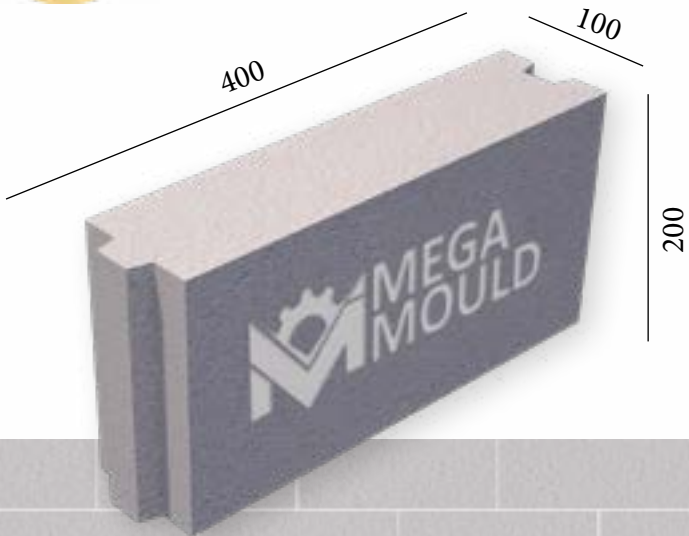

Mega Machinery And Mould Industry; Industrial service activities, applying universal standards, following the economic and technological developments, taking into account the demands from the customers, aiming to produce reliable products without compromising on the quality. Our company aims to produce concrete paving and hollow block machine moulds in line with the developing technologies and world standards. Design, spare parts, labor, installation and after-sales service quality has met the desired level, giving importance to scientific developments and thanks to the experienced personnel, has succeeded to be the leader and pioneer organization in overseas marketing.

OUR LEADING IDENTITY IN THE INDUSTRY

Our leading identity in the concrete mould industry and our belief in quality have been effective in making decisions based on data by using the opportunities offered by technology in line with the principles of research, innovation and competence. Being aware of social responsibility, understanding both parties, our importance for tolerance and support and our responsibility to environment are the other main factors that make us distinct. Our main aim is to lead Mega Machinery to the future by considering the customer satisfaction and welfare of the employees with the professional management. Our most distinctive feature that makes us different from our competitors is that we do our best to keep our customers satisfied.
